EDUCATION

Bachelor of Computer Science | CS major Sep 2021 – Jun 2025

Faculty of Computers and Artificial intelligence, Helwan University Cairo, Egypt

GPA 3.65/4

EXPERIENCE

IT Support Internship Aug 2024 – Sep 2024
Xceed

- Assisted in setting up Windows operating systems and creating system images.
- Troubleshot hardware and software issues, providing timely solutions to enhance user experience.
- Supported the IT team in maintaining network and system integrity.

PROJECTS

FlexGo 🔗
An online platform for personalized entertainment recommendations

It's a powerful platform that leverages personalized recommendations to connect users with trending entertainment.This dynamic and user-friendly website is built using React.js, enhanced with React Bootstrap for stylish components, Axios for efficient data fetching, Font Awesome for iconic elements, and Framer Motion for smooth animations.

Semone 🔗
A Professional Portfolio Website Showcasing Diverse Works and Expertise

A comprehensive portfolio website built with HTML, CSS, and Bootstrap, utilizing a grid system to enhance responsive design, efficient layout creation, and adherence to web development best practices for optimal performance and accessibility.

Product Management System 🔗
Interactive Product Management System with Local Storage and Regex Validation

An interactive product management system built with HTML, CSS, and JavaScript, featuring a dynamic form for adding, updating, and deleting products. It employs regular expressions for real-time input validation and local storage for persistent data management, while Bootstrap ensures a responsive design

TicTacToe 🔗
A 2-player game where players take turns marking a 3x3 grid

Developed a fully interactive Tic-Tac-Toe game using React.js, HTML, CSS, and JavaScript. Utilized React Hooks (useState) for state management, passed data between components using props, and created a responsive user interface.

To Do List 🔗
A task management application

where users can add, update, delete, and mark tasks as complete. Built with React.js, HTML, CSS, and JavaScript, utilizing React Hooks (useState, useEffect) and props for state management and component communication.

Risto Restaurant ✐
Restaurant Landing page

A Restaurant Landing Page built with HTML and CSS using Flexbox, featuring an organized layout to showcase the restaurant's ambiance and menu offerings

SKILLS

Technical Skills: React | React Hooks | JavaScript | TypeScript | CSS | HTML | Bootstrap | material UI | C++ | Java | Python | Framer Motion | Fetch API | Axios | AJAX | Git | GitHub | SQL | OOP | Spring Boot Problem-Solving •
